

SABBIR ALI SEIKH

SENIOR FULL STACK .NET DEVELOPER | 8+ YEARS | ASP.NET CORE | WEB API | REACT | SQL SERVER | AZURE

+91-8981329088 | sabbircompu@gmail.com | Kolkata, West Bengal | github.com/sabbiraliseikh892

PROFESSIONAL SUMMARY

Senior Full Stack .NET Developer with 8+ years of experience designing, developing and supporting enterprise web applications, REST APIs, data-intensive systems and business solutions. Strong hands-on experience with C#, ASP.NET Core, ASP.NET MVC, Web API, WCF, React.js, TypeScript, SQL Server and Oracle. Experienced in Entity Framework, Dapper, ADO.NET, stored procedures, ETL pipelines, Power BI integration, JWT authentication, Azure administration and cloud-based application development. Additional hands-on exposure to Vite, Tailwind CSS, Google ADK, Azure AI/ADK concepts, Generative AI and Agentic AI application development. Microsoft Certified: Azure Administrator Associate (AZ-104).

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL, HTML5, CSS3

Microsoft Technologies: ASP.NET Core, ASP.NET MVC, Web API, WCF, Windows Forms, Web Forms, .NET, ADO.NET

Frontend: React.js, TypeScript, Bootstrap, jQuery, AJAX, Vite, Tailwind CSS

Data Access: Entity Framework Core, Entity Framework, Dapper, ADO.NET

Databases: Microsoft SQL Server, Oracle, Stored Procedures, T-SQL, Query Optimization

Cloud & DevOps: Microsoft Azure, Azure Portal, Azure Administration, Linux, Git, GitHub, Postman

Reporting & Analytics: Power BI, RDLC Reports, Crystal Reports, iTextSharp, ETL

Security & APIs: REST APIs, JWT, Refresh Tokens, OTP, Role-Based Authorization, ASP.NET Core Identity

AI & Modern Development: Generative AI, Agentic AI, Google ADK, Azure AI/ADK concepts, Google Cloud / Cloud Run

Architecture & Practices: Clean Architecture, Layered Architecture, System Design, Agile/Scrum, Code Review, API Design

PROFESSIONAL EXPERIENCE

ITC Infotech India Ltd. | Associate IT Consultant (Grade IS1) | Sep 2022 – Present

Client: ITC Limited

- Architected and delivered enterprise applications including HRMS, Meal Booking and Treasury systems serving 5,000+ employees.
- Built a custom .NET ETL tool to ingest high-volume Excel, CSV and TXT datasets into SQL Server staging tables, processing 1M+ rows per run.
- Designed and optimized 50+ stored procedures, SQL functions and complex queries supporting Power BI dashboards and business KPIs.
- Developed full-stack functionality using ASP.NET Core, Web API, React.js, SQL Server and Bootstrap across enterprise applications.
- Implemented REST APIs, authentication and secure application workflows using JWT, ASP.NET Core Identity and role-based authorization.
- Conducted weekly code reviews for a team of 4 developers and supported technical knowledge sharing and release quality.
- Worked on reporting solutions using RDLC, Power BI and data transformation/ETL processes.

Disaster Management & Civil Defence Department, Government of West Bengal | Software Developer | Sep 2018 – Sep 2022

- Designed and developed the Online COVID-19 Ex-Gratia Application using ASP.NET Core, C#, Web API and SQL Server.
- Built a web-based Management Information System for incident reporting, improving data collection and reducing manual reporting effort.
- Integrated real-time data feeds from external agencies into disaster management software.
- Developed data visualization dashboards to support operational decision-making.
- Worked across application development, database integration, deployment and secure handling of government data.

KEY PROJECTS

FBD Data Analytics & ETL Platform | Mar 2025 – Present | Developer

Technology: ASP.NET, C#, Web API, .NET ETL, SQL Server, Power BI

- Built a high-volume ETL and analytics solution for ITC Food Division, ingesting Excel/CSV/TXT data, applying SQL transformations and preparing structured data for Power BI business KPI dashboards.

Dhristi – HRMS Platform | Jan 2023 – Present | Developer

Technology: ASP.NET, C#, Web API, Bootstrap, jQuery, Oracle, SQL Server

- Developed and maintained HRMS modules covering employee data, payroll, leave management and performance tracking with secure access controls and reporting.

Meal Booking System | Aug 2024 – Aug 2025 | Developer

Technology: ASP.NET Core, React.js, Web API, SQL Server, Bootstrap, RDLC

- Developed full-stack modules for user, admin and vendor portals, including API integration, database operations, business workflows and RDLC report generation.

Corporate Treasury System | Jul 2023 | Developer

Technology: ASP.NET, C#, Windows Forms, WCF, SQL Server

- Worked on financial data import and reporting for investment data including MF, FD, Bonds and Forex, with automated Excel-to-database processing.

Online COVID-19 Ex-Gratia Application | May 2022 | Developer

Technology: ASP.NET Core, C#, Web API, SQL Server, iTextSharp

- Developed a government web application for beneficiary verification, claim processing and relief-fund workflow.

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)

EDUCATION

- B.Tech in Computer Science & Engineering – Government College of Engineering & Textile Technology, Serampore

AWARDS & RECOGNITION

- Best Software Developer of the Year – 2021
- Pat on the Back Award – 2x, ITC Infotech India Ltd., for project delivery and team contribution

ADDITIONAL TECHNICAL EXPOSURE

- Matrimony platform development using .NET 8, Clean Architecture, ASP.NET Core Identity, JWT, Refresh Tokens, Email/SMS OTP, Redis, React, TypeScript, Vite, Tailwind CSS, Oracle, Entity Framework and Dapper.
- AI application development using Google GenAI/Gemini, Google ADK, Agentic AI concepts, Firebase/Firestore and Google Cloud Run.
- Experience with SQL Server performance optimization, large-volume data loading, transaction-log considerations, indexing and table partitioning concepts.
